DoDI 5000.2, Acquisition of Services (changes)

- Planning for acquisition of services must consider:
 - Requirements development and management
 - Acquisition planning
 - Solicitation and contract award
 - Risk management
 - Contract tracking and oversight
 - Performance evaluation
- Special procedures for IT services >\$500M, all services >\$1B, and special interest programs designated by ASD(NII), USD(AT&L) or their designees:
 - Senior officials/decision authorities must be notified prior to issuing final solicitation (briefing or written)
 - ASD(NII)/DoD CIO notifies USD(AT&L) of any proposed acquisition of IT services over \$1B
 - Review by ASD(NII)/USD(AT&L) initiates review of acquisition strategy – final RFPs cannot be released until approval
- Independent mgmt reviews (Peer Reviews) for contracts > \$1B

Multifunctional Independent Review Team (MIRT)

- IAW AFFARS Subparts 5301.90, 5307.1 and MP5301.9001(b), CAA shall use MIRTs as integral part of clearance process by validating each Critical Decision Point (CDP)
 - Required for competitive actions over \$50M, at discretion of CAA for actions <\$50M and any dollar value for non-competitive actions
 - Independent review of draft ASP or Acquisition Plan, Sections L&M of RFP, Competitive Range Brief or Award without discussions brief, draft Final Proposal Revision (FPR) request, draft Source Selection Decision brief (may include pre-SSDD & PAR), and anything identified as an Area of Special Interest (ASI)
- MIRT members include Technical/Requirements activity, Legal, Contracting, and others as needed (FM, SB, DCMA)

Peer Reviews

- OSD Peer Review required for Competitive and Non-Competitive actions valued at \$1B or more
- Prior to the OSD Peer Review, SAF/AQC AF MIRT required to ensure that AQC is in agreement with the strategy before OSD does their peer review

Moving at Light Speed in a Restrictor Plate Environment

How do we get there faster?

- Look for AFSO21 opportunities to improve processes
- Understand review process and expectations of Reviewers
 - Strategy should meet/exceed expectations
- Work together, teams must communicate more often; share templates, samples and lessons learned
- Share ideas and solicit Industry feedback early and often
 - Use successes from other programs & avoid pitfalls
