Every Transaction; Every Decision; Every Day

Electronic Systems Center Montgomery IT Summit

Collaborative Solutions - Accelerated

- Government and industry bringing people and information together to reduce decision times and accelerate innovation and the acquisition process

- Develop acquisitions strategies that enable open, secure, adaptable collaborative solutions to user requirements

- Partnering to deliver on-time, on-budget implementation for AF Business Systems

SECAF & CSAF Goals for Air Force Acquisition

Recapturing acquisition excellence requires an experienced, skilled, empowered, and accountable workforce, and begins with proper requirements and adequate and stable funding.

- Revitalize the Air Force Acquisition Workforce
- Improve Requirements Generation Process
- Instill Budget and Financial Discipline
- Improve Air Force Major Systems Source Selections
- Establish Clear Lines of Authority and Accountability within Acquisition Organizations

Restrictor Plate Environment

- 4 Mar 2009, President Barack Obama supported bipartisan legislation to reform the defense acquisition process
  - He rejected the “false choice” of deciding between national security and wasting billions of taxpayer dollars.
- Cut $40 billion in wasteful spending each year
- Developing “tough new guidelines” on contracting by the end of September.

Restrictor Plate Environment Cont'd

- Increased complexity and scope requires more attention to:
  - Federal Acquisition Processes
  - Federal Acquisition Work Force
  - Stakeholders' Role at Every Level of the Acquisition System

- Acquisition Reform Bill
- Among the reforms in their proposed Weapons Systems Acquisition Reform Act, one would require the Pentagon to conduct preliminary design reviews before giving approval to new acquisition programs.

- Cut $40 billion in wasteful spending each year

Challenges

- Challenges facing the 754 ELSG
  - > 45% O&M budget cuts (FY 2006 – 2009)
  - Continuing pressure for personnel reductions
  - Managing a geographically separated workforce
  - Maintaining credibility with our customer
